

SiFlood™

The New Dimension of Light.

Fewer luminaires, higher efficiency.

Advanced light distribution minimizes fixture count while maximizing performance.

Streamlined maintenance.

Flexible ECG integration on pole or luminaire for easy servicing.

Zero glare, zero spill.

0 % light pollution. Neighbor and nature friendly.

Precision lighting flexibility.

Rotatable modules and adjustable light heads enable tailored illumination.

Smart, needs-based control.

Needs-based light control with DALI2, DMX RDM and SITECO® Connect Sport.

Broadcast-ready performance.

Excellent color rendering & flicker-free super slow-motion for TV broadcasts.

Engineered for durability.

Manufactured for long-lasting performance with non-yellowing PMMA lenses, robust glass covers and die-cast aluminum housing.
